

OMNICHROMA: ONE SHADE FITS ALL

MECHANISM

COMPONENTS

1. Fillers- Uniform supra-nano Spherical filler (260nm SiO₂-ZrO₂)
2. Monomers - UDMA/TEGDMA

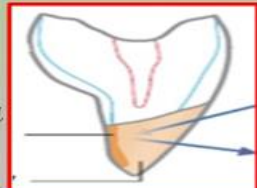

SMART CHROMATIC TECHNOLOGY

Generates red-to-yellow structural color equivalent to the color elements of a natural tooth.

CURING

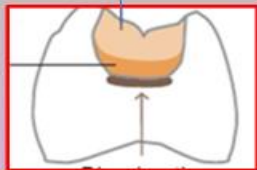

OMNICHROMA BLOCKER & FLOW

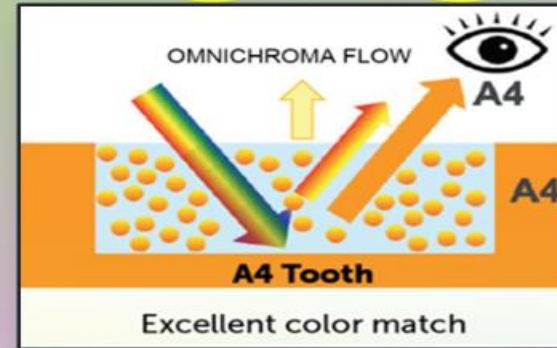

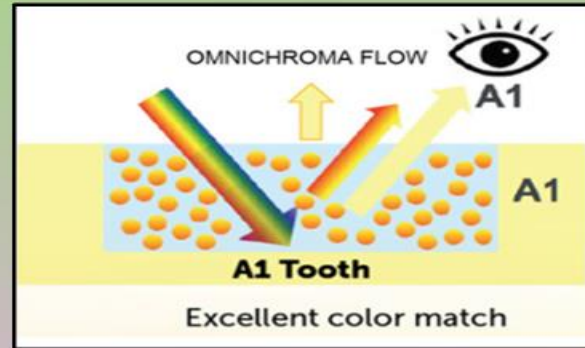

Visible light

Omnichroma blocker
Omnichroma flow

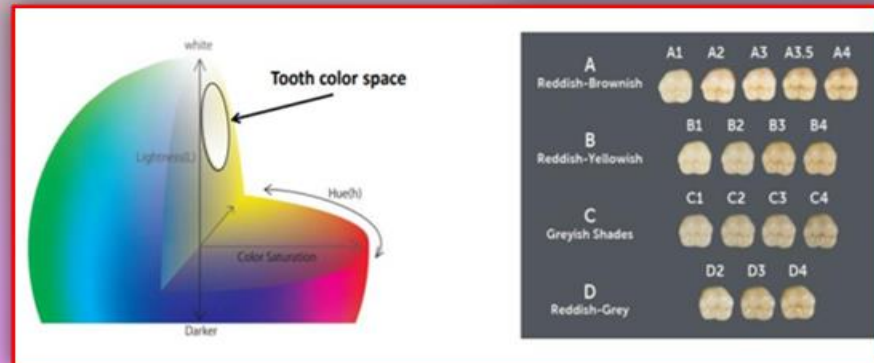

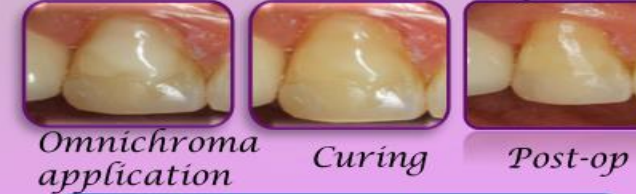

Discolouration

Omnichroma blocker

CLINICAL PROCEDURE

PROPERTIES

1. Superior polish ability
2. Color stability
3. Lower wear and abrasion
4. Excellent handling properties
5. Higher compressive strength
