

Precision In Pixels: The Rise Of Virtual Reality In Modern Dentistry

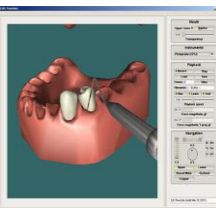

Clinical Applications

Use of virtual reality

Dentsim

Periosim

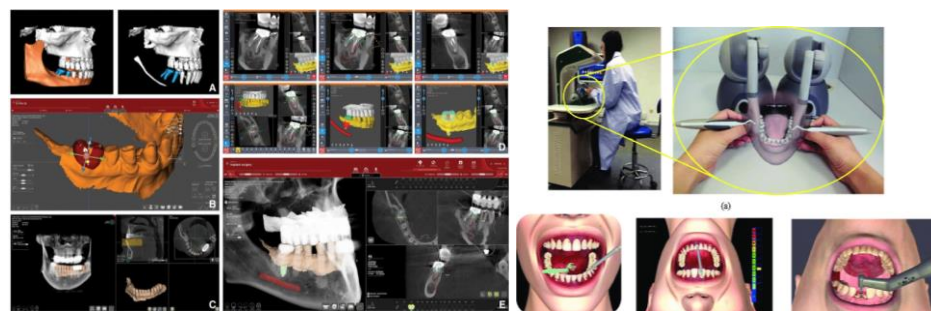

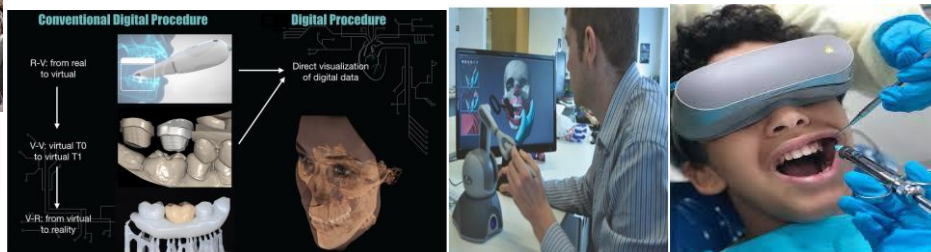

Virtual reality 3d simulators

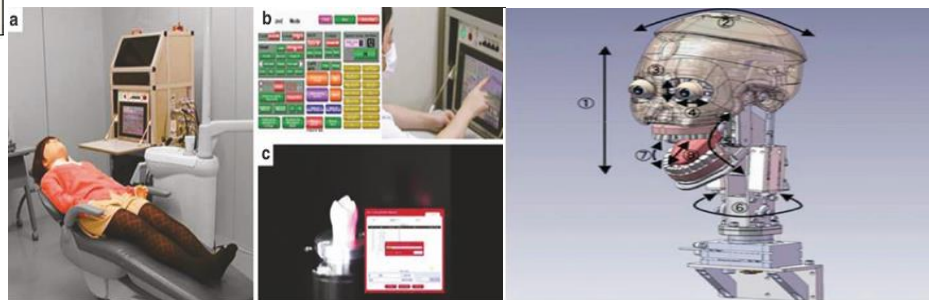

Simodont

Virtual Lab

Moog

Virtual patients

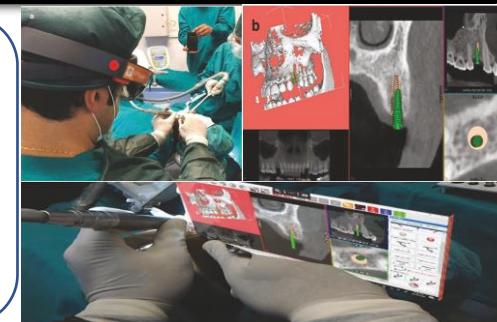

Robotic patient: Dentaroid

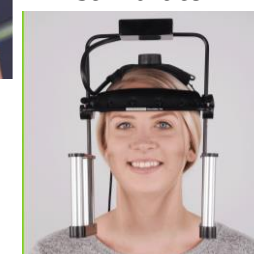

Virtual Reality in surgical training

Voxel Man stimulator

Stereo vision in maxillofacial and Orthognathic Surgery

Manmos (Mandibular motion tracking system)

VR in Temporo mandibular joint analysis
